Safety Lockout Products
Need Safety Lockout Fast?
When lockout products are needed fast, you can count on Master Lock to deliver with our Express quick ship service. Within 48 hours of placing your order you can have custom safety padlocks keyed to your specifications and safety lockout devices delivered direct to your door. Contact us for costs and delivery details.

Lockout Consulting that Makes OSHA Compliance Simple
In less than 30 days, you can implement a visual lockout program for your facility. With these procedures, your employees are more efficient performing lockout, are safer, and your insurance rates can go down. You are fully OSHA compliant on machine specific procedures. Guaranteed.

- Easy to understand, easy to use visual procedures
- Quicker and more accurate lockout
- Less time spent by maintenance crews
- Less downtime for your expensive equipment
- Avoid OSHA scrutiny and fines
- Savings on insurance and worker’s compensation

Our team of lockout experts can support you to ensure your facility is in full compliance with OSHA lockout standards 1910.147.

We can help.

- Visual lockout procedures
- On site authorized and affected employee lockout training
- Annual audits of your procedures, as required by OSHA
- Corporate lockout policy development

Zenex™ Thermoplastic Safety Padlocks

Optimal safety padlock designed exclusively for Lockout/Tagout by Safety Directors. Distinctive Zenex™ thermoplastic safety padlock is durable, standardized, substantial and identifiable for OSHA 1910.147 compliance. Stands up to chemicals, temperature extremes, and is UV stable.

ZENEX™ THERMOPLASTIC SAFETY PADLOCK FEATURES

► Durable padlocks weigh only ounces (400 series 4 oz., S30 Series 3 oz.), making it easy to carry many
► Temperature tested from -50° F to +350° F
► Excellent corrosion resistance
► UV stable
► No silicone used in padlock
► Over 40,000 unique safety key codes available. Over 1 million possible codes with optional key cylinders.
► Keyed Different, Keyed Alike and Master Keyed options
► Key retaining – ensures padlock is not accidentally left unlocked. S33 non key-retaining for group lockout
► Includes one key to ensure compliance with OSHA guideline of one employee, one padlock, one key
► Available in up to 9 colors
► Includes write-on "Danger" and “Property Of” labels
► Body sides and face can be laser engraved for permanent identification
► Non-rekeyable ensures your safety lockout system stays pure by preventing haphazard rekeying and the accidental introduction of duplicate key codes
► Your facility’s padlocks can be key charted to ensure no duplicate key numbers are supplied and accidentally handed out to multiple employees
► Virtually all components are made in the U.S.A.
► Uses FDA approved lubricants safe for use in food processing

Designed by Safety Directors

- Write on North American English, Spanish, and French. Multilingual label options available. (50 labels/language)
## Safety Padlock Keyed-Alike Sets

Popular quantities of safety padlocks are conveniently packed in sets, simplifying the order process.

### Safety Padlocks Built and Packed in Popular Keyed Alike Quantities

Workers often need to lock out more than one energy source on a single piece of equipment. Keyed alike safety padlocks can help serve this purpose.

To simplify and expedite ordering, Master Lock now offers our Zenex™ Thermoplastic, Aluminum and Steel safety padlocks in popular keyed alike quantities – sets of 3, 6, 12, 18 or 24 locks. These locks are ordered as "1" unit and are packed together making them easy to distribute.

#### “n” Denotes quantity of padlocks per keyed alike set.

Accessories

**Safety Lockout Accessories for OSHA compliance**

- Chains keep padlocks close to equipment requiring safety lockout
- Engravable brass tag provides for individual worker identification
- Tags attach to safety lockout padlocks with 71SC8 and 71SC9 collars

**Lockout Leash™ Lanyard**

- Lanyard for mounting padlock or hasp near lockout point
- 36" lanyard can easily be shortened to 2" to reduce excess slack
- Includes mounting clips for 1/4" and 9/32" diameter shackles
- Fits Master Lock and American Lock Safety Padlocks and most Safety Hasps

**Safety Padlock Caddy**

- Keep safety padlocks near appropriate machinery
- Hold up to 12 padlocks based on number of lockout points
- When locking out, conveniently carry caddy to all lockout points
- When all padlocks are gone, all lockout points have been met

**End User Registration and Key Charting**

*Free Service Helps Prevent Duplicate Key Codes in a Facility*

- Key charting is a record of all the safety padlock key codes assigned to a facility.
- It is important that each authorized employee at a site has a unique padlock key that only opens that employee’s safety padlock. This maintains OSHA’s one employee-one key directive.
- To help prevent duplicate keys from jeopardizing your lockout program, register your site with Master Lock. Once registered, Master Lock will send you an End User Identification Number for your site’s Key Chart.
- When you use that I.D. number on each additional padlock order, Master Lock will use a new key code for each padlock we manufacture for you. When used properly, this free service helps ensure that each employee carries a key unique to them, eliminating unwanted key duplication in a safety lockout program.
- Locate the Master Lock End User Registration form and instructions at [www.safetyseries.com](http://www.safetyseries.com), Product Support.
Safety Lockout Hasps

Lockout by Multiple Workers at Each Lockout Point

- Attach hasp to energy disconnect switch
- Control cannot be turned on until last worker’s padlock is removed from hasp
- Multiple styles available to fit most needs: Spark resistant aluminum, Pry-resistant steel, Dielectric plastic, Dual jaw aluminum

Model 427 – Labeled Snap-On Hasp

- Combines multiple-person lockout and tagout identification
- Features an easy-to-apply “snap-on” advantage with its spring-loaded locking arm
- Fits more lockout points than alternative rivet-hinge labeled lockout hasps
- Anodized aluminum and stainless steel construction for combined corrosion-resistance and strength
- Complete with high visibility, re-usable, write-on safety labels (English, French & Spanish)

Grip Tight™ Circuit Breaker Lockout
Greatest Hold Strength Combined with Universal Fit

- Secure and simple mounting for a solid lockout. Holds tight with simple thumb turn and clamping handle.
- Exclusive design accommodates virtually all styles of breaker toggles
  - Model 491B fits tall and wide breaker toggles
  - Model 493B fits standard height and tie-bar toggles
- Narrow profile permits side by side breaker lockout
- Compact devices are easy to carry and easy to store
- Both devices accept all American Lock® and Master Lock® safety padlock shackle and lockout hasp diameters
- Durable construction with powder coated steel and reinforced polymer allows operation in harsh environments
- Patented

Circuit Breaker Switch Padlock
**Provides the Flexibility to Effectively Lock Out Breaker Switches**

- 3/16” diameter cable shackle allows padlock to properly lock all types of circuit breaker lockout devices
- Flexible cable allows the compact lock body to be positioned so that the control panel door closes properly
- Fits the tight space constraints within circuit breaker shut-off boxes
- Numerous key changes are available to minimize the possibility of unwanted key duplication

Rotating Electrical Plug Lockouts
**Outward/Inward Rotation Allows for Easier Application & Storage**

- Surrounds the electrical plug; protects against accidental reconnection
- Unique, patented rotating design allows for easier installation in confined space applications
- Complete with high-visibility permanent safety labels (English, French & Spanish). Labels can be written-on to identify the responsible person, then erased for the next job.
- Tough, lightweight, dielectric Zenex™ thermoplastic bodies withstand chemicals; perform effectively in extreme conditions (temperature range -50° F (-46° C) to +350° F (177° C))

Removable Push Button and Rotary Switch Cover
Ideal for new installation or for retrofitting to existing switch panels

► Fits both 30.5mm and 22.5mm diameter switches
► Clear base and cover allow visibility of nameplates and labels
► Horseshoe-shaped retrofit base allows use with raised nameplates and off-center installation to accommodate rotary switch knobs
► Accommodates buttons up to 2” (50mm) diameter and 1-3/4” (45mm) tall
► Accepts S100 lockout leash to tether removable cover at switch panel
► S2151 includes one cover, one new install base and one retrofit base with double-faced adhesive tape
► S2152AST pack of 12 new install bases allows one S2151 to service multiple switches on same panel
► Patent pending

Installed Push Button and Rotary Switch Cover
Ensures instant availability

► Captured by the rotary or pushbutton switch bezel
► Fits both 30.5mm and 22.5mm diameter switches
► Clear base and cover allow visibility of nameplates and labels
► Accommodates buttons up to 1-9/16” (40mm) diameter and 1-3/4” (45mm) tall
► Patent pending

Seal Tight™ Ball Valve Lockout Devices

**Effective Lockout for Virtually Any Ball Valve**

- Easy to use – simple, intuitive designs
- Broad application
  - Devices lock out ball valve sizes up to 4”
  - Fit virtually all types of pipe including insulated, PVC and metal
- Lightweight and compact – devices are easy to carry, store and apply even in tight, awkward spaces
- Patented

**S3068 Seal Tight™ Handle-On Lockout**

Metal device clamps tight on handle stop. Defies corrosive environments and temperatures -70°F to over 350°F.

**468L Seal Tight™ Handle-Off Lockout**

Device encloses the valve stem, with the handle removed, to make accidental reactivation virtually impossible. Operates in temperatures -40° to 250°

Group & Multi-Point Lockouts

Innovative patented cable lockouts and lock boxes offer efficient multipoint and group safety compliance.

Adjustable Cable Lockouts
*Infinitely Adjustable for a Secure Fit Every Time*

- Integrated safety hasp and cable are ideal for multi-point lockout
- Feed the cable end through the points to be locked out, then back through the lockout body. Cinch it tight to remove any slack with the patented locking feature.
- Tough, flexible multi-stranded steel cable is insulated with a clear plastic coating
- Tough, lightweight Zenex™ thermoplastic body withstands chemicals; performs effectively in extreme conditions [temperature range of -40°F to 200°F]
- Master Lock S806 includes a 6' cable. Cable available in 1 ft. increments from 2 ft. to 50 ft.
- Complete with high-visibility, re-usable, write-on safety labels (English, French & Spanish)

Latch Tight™ Group Lock Boxes
*Storage Devices Capture Keys for Effective Lockout of Large Equipment*

- Secure each lockout point on a piece of equipment with a single padlock. Place the keys in the group lock box and then each authorized employee places their personal padlock on the lock box.
- When work is complete, employees take their personal padlocks off the lock box, freeing the keys inside. Keys inside cannot be accessed until the last employee removes their padlock.
- Feature an exclusive, patented Latch Tight™ locking mechanism that prevents keys from being accessed until the last padlock or lockout hasp is removed from the box. Provides the highest level of security available in a group lock box.
- Lockout message on box is in three languages – English, Spanish, and French
- Durable powder coated finish with stainless steel handle
- 503RED and 503YLW can be mounted to wall or carried from job to job
  - Available in red or yellow. Accepts 14 padlocks or lockout hasps.
- 498A is a portable solution. Available in red. Accepts 12 padlocks or lockout hasps.
- Each box holds hundreds of keys. 503 also includes organized storage for 12 keys in back of box.

Choose the padlocks for your needs.

- **Zenex™ Thermoplastic Padlocks**
  Non-conductive, lightweight bodies with permanent write-on labels for worker identification. Key retaining feature ensures that padlocks are not left unlocked. Reserved-for-Safety, high security, 6-pin cylinder offers over 100,000 possible key changes.

- **Anodized Aluminum Padlocks**
  Heavy duty padlocks feature a durable anodized finish. The 5-pin cylinder offers over 10,000 key changes to minimize risk of key number duplication within a facility.

- **Steel Padlocks**
  Durable, general security padlocks have reinforced laminated steel construction to withstand physical abuse and a 4-pin cylinder offering up to 1,400 key changes.

Custom Assortments of Padlocks & Devices Also Available—See Page 26
Personal Ultra-Durable Lockout Kits

**Electrical, Valve and Combined Lockout/Tagout Toolboxes**

- Upgraded safety lockout toolbox keeps important lockout devices and padlocks together
- Kits include high-use components, satisfying most lockout applications
- Personal kits are for an individual worker; padlocks are supplied keyed-alike for added worker convenience

### Group Lockout Kits

**Modular Lockout/Tagout Organizers**

- Lightweight safety lockout carrying case, 15”W x 9-1/2”T x 7”D, with modular, translucent storage compartments for improved organization and fast component selection
- Kits include high-use components, satisfying most applications
- Separate compartments for effective grouping of (1) padlocks & hasps, (2) valve lockout & (3) electrical lockout components
- Group kits are for multiple workers; padlocks are supplied keyed-different, so that no unwanted key interchange occurs
- PLUS, a no-charge Safety Lockout Padlock Key Charting System is available to you. Simply return the enclosed mail-in card after your purchase. Master Lock will supply a Registered System number, maintain a record of the padlock key cuts provided with your station and ensure that there is no unwanted padlock key cut duplication on your future orders* – this is critical for Safety Lockout!

## Padlock Stations

**Virtually Indestructible, the Strongest Stations Available**

- Integrated, one-piece molded construction eliminates loose parts
- Resilient polycarbonate material provides twice the heat resistance and quadruple the impact strength of typical stations
- Reinforced snap-lock clips provide easy padlock and hasp storage and removal
- Exclusive translucent cover protects contents
  - Lockable to prevent loss of valuable safety lockout padlocks. Recommend using a combination lock for simple access control.
  - Innovative hinge holds cover open for easy product selection
- Available with your choice of Zenex™ Thermoplastic, Aluminum or Steel padlocks in 4, 10 or 20 lock formats
- Safety Hasps and Tags included
- PLUS, a no-charge Safety Lockout Padlock Key Charting System is available to you. Simply return the enclosed mail-in card after your purchase. Master Lock will supply a Registered System number, maintain a record of the padlock key cuts provided with your station and ensure that there is no unwanted padlock key cut duplication on your future orders – this is critical for Safety Lockout!

### Padlock Stations

**These durable, user-friendly lockout stations provide a central location for lockout padlocks, tags and hasps.**

### Choose the Padlocks for Your Needs.

- **Zenex™ Thermoplastic Padlocks**
  - Non-conductive, lightweight bodies with permanent write-on labels for worker identification. Key retaining feature ensures that padlocks are not left unlocked. Reserved-for-Safety, high security, 6-pin cylinder offers over 100,000 possible key changes.
- **Anodized Aluminum Padlocks**
  - Heavy duty padlocks feature a durable anodized finish. The 5-pin cylinder offers over 10,000 key changes to minimize risk of key number duplication within a facility.
- **Steel Padlocks**
  - Durable, general security padlocks have reinforced laminated steel construction to withstand physical abuse and a 4-pin cylinder offering up to 1,400 key changes.

### Custom Assortments of Padlocks & Devices Also Available—See Page 26

Lockout Stations

These durable, user-friendly wall stations offer the ultimate storage space for large facilities or multiple departmental use.

CHOOSE THE PADLOCKS FOR YOUR NEEDS.

Zenex™ Thermoplastic Padlocks
Non-conductive, lightweight bodies with permanent write-on labels for worker identification. Key retaining feature ensures that padlocks are not left unlocked. Reserved-for-Safety, high security, 6-pin cylinder offers over 100,000 possible key changes.

Anodized Aluminum Padlocks
Heavy duty padlocks feature a durable anodized finish. The 5-pin cylinder offers over 10,000 key changes to minimize risk of key number duplication within a facility.

Steel Padlocks
Durable, general security padlocks have reinforced laminated steel construction to withstand physical abuse and a 4-pin cylinder offering up to 1,400 key changes.

Custom Assortments of Padlocks & Devices Also Available—See Page 26

Deluxe Lockout Station

Large Capacity Lockout Station Holds Departmental Lockout Needs

- Durable construction ensures long life in your facility
- Upper and lower sections lockable to ensure devices are there when needed for lockout. Add a combination lock for simple access control.
- 16 hanger clips hold 2 padlocks or lockout hasps each
- Covered compartments protect devices and keep dust and grime out
- Moveable dividers in top and bottom trays help organize devices
- Holes provided along bottom for optional peg hook hangers. Use to hang large, bulky devices.
- Available filled or unfilled
- Upper unit ideal for larger lockout devices and padlocks. Lower unit ideal for tags and smaller lockout devices.
- Lower unit has two tip-out drawers. Each measures 10” wide x 6-7/8” high x 3-1/4” deep.
  - Dividers included to create 2, 3, 4, 5 or 6 compartments
  - Each compartment holds 25 tags. Total capacity of lower unit is 150 tags.
- Measures 26-1/2” high x 22” wide x 4-1/8” deep
- PLUS, a no-charge Safety Lockout Padlock Key Charting System is available to you. Simply return the enclosed mail-in card after your purchase. Master Lock will supply a Registered System number, maintain a record of the padlock key cuts provided with your station and ensure that there is no unwanted padlock key cut duplication on your future orders*—this is critical for Safety Lockout!

Deluxe Tag Center

Deluxe Tag/Lockout Center Holds Multiple Groups of Tags

► Durable construction for years of use in corrosive environments
► Two tip-out drawers with dividers to create 2, 3, 4, 5 or 6 compartments
► 8 hanger clips along bottom hold safety padlocks or hasps
► Each compartment holds 25 tags. 150 tag capacity
► Compartments can be used for lockout devices too
► Each tip-out drawer measures 10” wide x 6-7/8” tall x 3-1/4” deep inside
► Upper tray for zip ties and small lockout devices
► Lockable. Use combination padlock to limit access to authorized employees
► Also suitable for ear plugs and eyewear

Measures 11” x 22” x 4-1/8”
Custom Lockout Kits and Stations

Tailor the mix of Safety Series™ lockout products for your safety requirements

You can determine the mix of Safety Series lockout products for your unique safety requirements in 2 Easy Steps! Master Lock then packs each kit or station at no additional upcharge.

► 1. Choose any assortment of Safety Series padlocks, lockout devices, and tags to satisfy specific employee needs

► 2. Choose any portable lockout kit or wall-mount station to store your newly selected assortment.

► Custom kits and stations are priced at the total of all components - padlocks, devices, tags, and the kit.

► Customers, please contact your preferred Master Lock Safety Series Distributor to specify the contents of your kits. Distributors, contact Master Lock Safety Specialists at 800-944-1380 to process the order.

► Minimums apply.

Guardian Extreme™ Safety Signs & Tags

Make sure your safety message is clearly visible for years and years with Guardian Extreme signs and tags.

Our process permanently fuses the safety message into rugged, industrial grade polypropylene, creating the longest lasting signs and tags available. These graphics remain vibrant and clear for years – even when exposed to high humidity, UV radiation, harsh chemicals, frequent wash downs, extreme high and low temperatures and more.

Environmentally Friendly is Business Friendly

Guardian Extreme lifetime tags and signs withstand tough environments and abuse eliminating the cost of replacement.

Rewrite-Reuse
Modify the message as often as needed

Guardian Extreme signs and tags provide the ultimate flexibility. You add the exact safety message for the job with permanent marker, erase it when the work is complete and repurpose it for the next job.

Wipe off current message with Isopropyl Alcohol

Cleaned tag ready for next message - write new message with permanent marker

A brand new message is ready for the next project

Reduce

Durable

► Guardian Extreme tags hang tough to exceed OSHA requirement that tags meet 50 lbs pull strength.
► Guardian Extreme tags withstand over 90 lbs pull force.
► Other paper or plastic tags, with grommets or without – only reach 10 – 50 lbs pull strength.

More tags in less space

Guardian Extreme tags stack flat in kits and stations, remaining neat and organized when stored.

Corrosion free

Guardian Extreme tags have no grommet to corrode.

Recycle

If your message changes and you decide to retire a sign or tag, you are assured that every Guardian Extreme sign and tag is 100% recyclable.
The longest lasting signs and tags – ever!

Survive Washdowns and Humidity
Graphics are fused to the rugged polypropylene at over 300 degrees. There are no edges to peel or curl. No layers to delaminate and separate. Your safety message remains intact...ideal for food processing facilities, mining, chemical plants, refineries, paper mills and outdoors. Great for anyone who would like your maintenance team spending their time doing something other than replacing signs throughout your facility and grounds.

Superior Outdoor Performance
The graphics remain bright and clear. Guardian Extreme signs and tags withstood over 4000 hrs of brutal QUV testing, the equivalent to ten years of outdoor exposure. When other signs and tags faded, cracked and yellowed, Guardian Extreme signs and tags stood strong.

Superior Chemical Resistance
Tested and proven to stand up to over 30 harsh chemicals found in your facility.

You have better things to do than replace worn out signs and tags
An illegible safety message is hardly better than no message at all.

Master Lock Guardian Extreme Tags and Signs help to ensure that you:

- Keep employees safe
- Maintain OSHA compliant signage and procedures throughout your facility
- Minimize maintenance crews' efforts and maximize production up time
- Optimize your budget and time

Guardian Extreme Signs and Tags help keep you focused on these responsibilities. These safety signs and tags are engineered to withstand the most demanding conditions – indoors or out, while lasting a lifetime.
Long lasting Guardian Extreme™ tags and signs can be customized to enhance your safety message. Our patent pending process allows you to add full color graphics, photos, custom text, alternate languages, diagrams, maps, company logos and more. If you can design it, we can imbed the graphics into the sign or tag when we mold it.

For preconfigured and blank templates, visit www.safetyseries.com. You will also find guidance on designing your custom tags and signs and how to order them.

Commitment to the Environment

Reduce, Reuse and Recycle.

Master Lock is proud to do all three.

Reduce:
Our Safety Series™ Zenex™ thermoplastic padlock bodies are molded using a hot runner injection molding process that results in virtually no scrap material.

Reuse:
Precision engineering, durable materials, and simple recommended padlock maintenance makes all Master Lock Safety Series padlocks last and last.

Recycle:
Safety Series padlocks use a high percentage of recycled metal. Steel shackles are made of 100% recycled material. Brass keys and key cylinders are also made of 100% recycled material. Our Aluminum Safety Series padlocks are machined from 50% recycled material.

100% of the aluminum, brass, and steel material remaining after precision machining of Safety Series padlocks is recycled.

Protecting People and the Planet:
Our safety padlocks use FDA approved lubricants safe for use in food processing.

And by making virtually every part of the Safety Series padlock in our ISO 9001 North American facilities we offer the lowest carbon footprint of any padlock manufacturer.

Master Lock is committed to stewardship of the environment, to the people who make and use our safety products, and to the communities where they are made and used.
